topbamboo

versatile and easy to install

MOSO Topbamboo consists of a top layer of bamboo combined with a HDF (High Density Fibre board) as the core and a softwood backing. Because of this construction, the product is **very stable**, while the click system (Uniclic®/5G*), makes it very **easy to install** (no glue needed). Topbamboo is available in a **large variation** of fashionable **colours and finishes**, including brushed and stained versions.

*) For more information about the 5G click system: see backside of this leaflet.

discover the topbamboo benefits

hard & durable

With a toplayer that matches the hardness and density of hardwood species such as Oak, Topbamboo is suitable for use even in high traffic applications, especially in the High Density* version.

high stability

Because of the special composition, Topbamboo will shrink and swell less than solid wood species, providing a more stable floor.

easy to install

Because of the click system (Uniclic®/5G) the Topbamboo boards are very easily connected without the use of glue.

healthy

As a product from nature, Topbamboo floors are anti-static and anti-allergic, and facilitate a healthy indoor environment.

natural beauty

Inspired by nature, Topbamboo is not only a conscious choice but also a stylish one.

endless resource

With a growing speed of up to 1 meter per day, Moso bamboo is the fastest growing plant on earth.

vast choice

Topbamboo is available in a large variety of finishes, styles and colors to cater to anyone's preferences.

warranted quality

Topbamboo floors are of the highest quality and come with a product guarantee of 10 years.

*) Also available with 5G click system

NEW: Topbamboo with 5G click system

With the 5G click system the boards can be installed one by one, thanks to a flexible plastic strip on the head side. As you push down the new board this strip bends inwards. When the board is fully flat on the floor the strip "bounces back", locking the boards together. This efficient way of installation can save a lot of time.

MOSO Bamboo Products

MOSO is the undisputed European market leader in the development of innovative and sustainable bamboo products for interior and exterior applications for the green building industry and beyond.
